Olena Testenko

Profile

Platform engineer with six years of experience running internal services for product teams of various sizes, with a strong focus on reliability and clear on-call practices that keep the incident load low for everyone who is involved in the weekly support rota.

Experience

Platform Engineer

Initech Demo Ltd, 2020-2024

- Moved the deployment pipeline to a declarative setup that is now used by four teams, replacing the hand-written release scripts and halving the average change lead time.
