Experience

Fin&Legal Operations manager

Kiss my Apps 01/2026 - 08/2026

- Redesigned contractor agreement workflow with defined SLAs and SOPs, cutting agreement turnaround time by 50% across 10-12 agreements/month and reducing operational labor costs by ~13%.
- Analyzed device usage patterns across design, QA, and engineering teams to identify affiliation risk exposure; developed and implemented a risk management framework, reducing compliance incidents by 15%.
- Standardized end-to-end process for legal entity setup, reducing average time-to-launch from 3 months to 2 months; developed SOPs and checklists that enabled the successful launch of 4 entities supporting business expansion into Europe and the USA.
- Designed and led a successful migration of Treasury processes from external contractor to in-house team, developed a roadmap, prepared operational policies, detailed processes using BPMN modeling, and automated critical operational steps (account opening/closing, cross-functional collaboration).
- Developed and deployed a custom bot for tracking and submitting payment requests across legal entities (offices, directors, services), automating routine tasks, and integrating with the company's financial system.
- Collaborated closely with the engineering team: writing technical specifications for operational features, managing bugs, and coordinating full project implementation from concept to production.

Operations manager

Skelar (Growly product) 10/2024 - 12/2025

- Led cross-functional implementation of reputation management function, defining business requirements, designing workflows, and rolling out across support and product teams.
- Set up automated systems to monitor reviews, categorize issues, and route them for resolution, reducing negative Trustpilot feedback by 30% and improving the speed of customer issue handling
- Built an end-to-end KPI tracking system with dashboards and reporting, increasing overall reputation score from 73% to 84%, reducing key risk metrics.
- Led partnership with Apple, Amazon, and FuboTV, coordinating product, operations, and support teams to launch and scale subscription programs, increasing CR by 13%
- Validated WhatsApp-based support communication via A/B test (+63% response rate); led cross-functional development of WhatsApp Business channel from spec to launch.

Finance manager

Freelance/Self Employed 04/2023 - 01/2025

- Led procurement and contracting processes (30+ contracts, 10 tenders), ensuring timely project delivery and compliance with budget
- Delivered 6 financial reports that supported strategic decision-making for project managers
- Developed and implemented a procurement policy that streamlined contractor management and reduced project delays

Program manager

Kyiv School of Economics 04/2023 - 09/2024

- Owned end-to-end delivery of an MBA program, covering planning, scheduling, stakeholder coordination, issue resolution, and performance reporting

- Built an operational knowledge system for the program, including process documentation, onboarding materials for 10+ instructors, and reusable templates across multiple courses
- Aligned operations, content, and teaching teams to launch and scale multiple courses, ensuring smooth execution across functions
- Designed and implemented an NPS tracking system that centralized feedback into dashboards and turned survey data into actionable insights for decision-making
- Improved the Operations Management course NPS by 60 points through structured feedback loops and iterative improvements
- Managed a program coordinator and coordinated 10+ instructors, removing blockers and keeping delivery timelines on track

Project manager

NGO Ecoaction 02/2022 - 01/2023

- Coordinated a sub-grant program for $29,000
- Organized 3 deliveries and purchases of 15 tons of humanitarian aid (medicines, generators, Ecoflow and food)

Procurement Manager

CSR Ukraine 02/2021 - 08/2022

- Organized 100+ tenders and managed relationships with 200+ contractors to ensure quality procurement and on-time delivery
- Developed a procurement policy that standardized processes and improved contractor management
