## UI/UX Designer (iGaming)

## ABOUT

UI/UX designer with experience in game and mobile product design. Focused on game flows, wireframing and creating production-ready interfaces from concept to developer handoff.

## EXPERIENCE

Nov 2025 — Present

### NDA — UI/UX Designer (iGaming)

Designed game flows, wireframes and UI for slot games.

Created clear player interactions and interface structures based on game mechanics.

Built final interfaces in Figma using Photoshop assets.

Prepared designs for developer handoff and implementation.

Sep 2024 — Nov 2025

### Welltech LLC — Mobile UI/UX Designer (Part time)

Designed a cross-platform mobile application for the beauty industry with dual user roles: clients and service providers (masters).

Developed tailored user experiences for each role, including distinct functionalities to book services (for clients) and manage service offerings (for masters).

Feb 2024 — Nov 2025

### Email-consulting — Marketing Designer

Designing email campaigns and banners, creating design templates using builders for easy reusability and scalability.

Website redesign and assembly on the Webflow platform to enhance user experience and boost conversions.

Leveraging AI in design solutions to improve project efficiency and quality.

Collaborating closely with email marketers.

Dec 2022 — Feb 2024

### Infusemedia — UI/UX Designer

Working with corporate guidelines and ready-made design systems, landing pages design, email design and implementation using HTML templates, banners creation.

Close cooperation with other designers, development team and clients.
