PROFILE

Product and market researcher focused on **market** & **competitive** intelligence, **growth** strategy, and **operational** analysis across **B2C SaaS** and web-to-app products. I identify **opportunities**, evaluate competitors, analyze **demand** and funnels, and turn research into clear **strategic recommendations** and go-to-market execution. I help businesses make faster, better-informed decisions by uncovering market **gaps**, clarifying customer **needs**, spotting growth **opportunities**, and translating complex data into **actionable direction**. Former business analyst with a structured, insight-driven approach to research, synthesis, and decision support.

WORK EXPERIENCE

Universe Group

oct. 2025 - aug 2026

Middle Product Researcher

- Conducted +10 market and product researches, identifying and evaluating new B2C SaaS & Web2App opportunities.
- Analyzed +80 markets and +2000 competitors across acquisition, traffic, pricing, positioning, and funnels to uncover market gaps and growth opportunities.
- Identified +10 promising product opportunities, with a half progressing to validation / testing / launch.
- Delivered 5 strategic and ad-hoc research projects, supporting Product, Growth, Marketing, and leadership decision-making.
- Reduced research turnaround time by 50% through improved frameworks, AI-powered workflows, and research automation.
- Transformed complex market data into actionable recommendations, supporting go / no-go and investment decisions.
- Identified unmet customer needs and behavioral patterns, translating them into product hypotheses and potential growth directions.
- Built structured research outputs from multiple data sources, enabling faster alignment and decision-making across cross-functional teams.

COAX

aug. 2025 - oct 2025
